

Intec CP3400 Digital Press

Brilliant Color at Unbeatable Cost

The Intec CP3400 Integrated Digital Press system is setting new standards in print quality. The CP3400 produces glossy, vivid colors, rich deep blacks and smooth color transitions while also providing the lowest cost per copy of any press in its class. Printers can now keep more print jobs in-house thanks to the Intec CP3400 Digital Press' flexible finishing features, outstanding media handling and unbeatable cost per copy **and there are no click charges.**

The Intec CP3400 Digital Press features a robust print engine designed to handle the most demanding workloads with the advanced features and flexibility you need to run your business. Here are just a few:

- Easy-to-replace toner cartridges.
- Print speeds of 50 ppm black and 45 ppm color
- Multiple input options expand capacity to 5,140 sheets
- Multiple sheet sizes up to 12.6" X 48
- Single sided printing up to 150 lb cover stock
- Automatic two sided printing up to 111 lb cover stock
- Supports a multitude of professional finishing options: Booklet creation, V-folding, hole punching, saddle stitching, collating, offset stacking and multi-position stapling

The Intec CP3400 combines high performance printing with easy-to-use features and time-saving workflow applications designed to boost your productivity. Robust connectivity makes it easy to integrate into almost any network environment.

If you have an eye for Color and Quality then the CP 3400 Digital Press is the system you've been looking for.
